NAME: DARSHINI DINESHKUMAR **ROLL NO :250701124**

EXPERIMENT 19

Exp No:19 Experiment to understand Logistic Regression for a given data set.

AIM:
To understand Logistic Regression for a given data set.

DESCRIPTION:
Understand the Logistic Regression algorithm for the dataset given.

CODE:

```
import numpy as np

import pandas as pd

df = pd.read_csv('/content/StudentPerformanceFactors.csv')

print(df)

print(df.head())

features = df.iloc[:, [0, 1, 5, 6, 9]].values

label = df.iloc[:, 7].values

print(features)

print(label)

from sklearn.model_selection import train_test_split

from sklearn.linear_model import LogisticRegression

from sklearn.preprocessing import StandardScaler

for i in range(1, 21):
```

```
    x_train, x_test, y_train, y_test = train_test_split(
        features, label, test_size=0.2,
        random_state=i, stratify=label)

    scaler = StandardScaler()
    x_train = scaler.fit_transform(x_train)
    x_test = scaler.transform(x_test)

    model = LogisticRegression(max_iter=1000)
    model.fit(x_train, y_train)

    train_score = model.score(x_train, y_train)
    test_score = model.score(x_test, y_test)

    print("Test {} Train {} Random State {}".format(
        test_score, train_score, i
    ))

x_train, x_test, y_train, y_test = train_test_split(
    features, label, test_size=0.2,
    random_state=37, stratify=label
)

scaler = StandardScaler()
```

```
x_train = scaler.fit_transform(x_train)

x_test = scaler.transform(x_test)

finalModel = LogisticRegression(max_iter=1000)

finalModel.fit(x_train, y_train)

print(finalModel.score(x_train, y_train))

print(finalModel.score(x_test, y_test))

from sklearn.metrics import classification_report

print(classification_report(
    y_test, finalModel.predict(x_test), zero_division=0
))
```

RESULT:

Thus, Logistic Regression was implemented successfully to predict student performance using the Student Performance Factors dataset. The model was evaluated using training and testing accuracy, and its performance was assessed using a classification report.
